The BORDER *within the border*

BLURRING *raw borders*

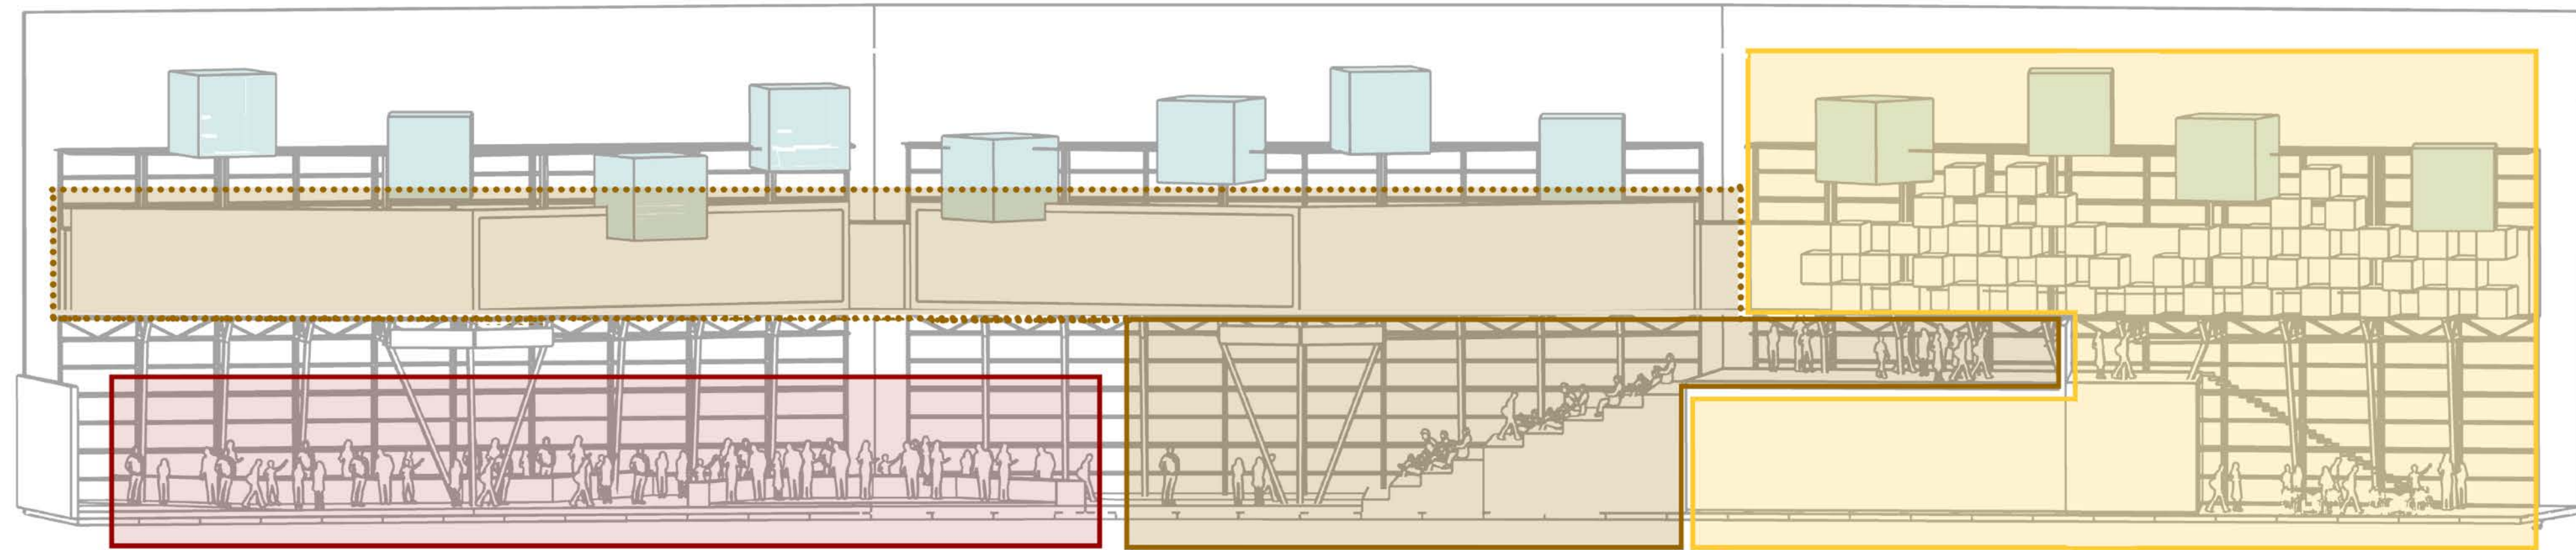

# BLURRING *raw borders*

*the design aims to create a buffer between the site and the outside world, a space for the frustrated construction worker to take a break, unwind and relax but at the same time helps adapts him to the community. It focuses on providing flexible dynamic spaces that act as a community intervention, that can be adapted/improvised by the user using their skillsets aiding to increased engagement and a sense of ownership.*

Blurring the border between the site and the street by seamlessly blending into the pedestrian path, thereby inviting the community to the site

# Spatial Strategy

**zone 1**  
community centric usage

**zone 2**  
cross-over usage between  
community and workers

**zone 3**  
worker-centric usage

*Temporality*

*Familiarity*

*Modularity*

*Reusability*

Design + Material Strategy
